How can I present the École normale supérieure in just a few words? I should speak of its tradition, name some of its most famous students (from Césaire to Bourdieu, Sartre, Foucault or Jacqueline de Romilly, from Kastler to Cohen-Tanoujdi, Ngô Bao Châu and Jean-Pierre Serre); I should mention the charm of its legendary buildings (a school of the French Republic housed in a kind of medieval cloister); I should also mention its singularity, because in spite of its small size (2,400 students, including the doctoral students and international students) the ENS stands out as one of the world’s very best universities. I should also mention its situation at the core of a network of Parisian universities and its involvement in the setting up of PSL Research University Paris; I should also go back over its tremendous growth during the last decades, thanks to its exceptional research centers in which students are directly in contact with the major issues of cutting-edge research.

Nevertheless I think that, in spite of all these elements, the essential would be missed: intellectual freedom, customized courses, synergies between Arts and Humanities and Sciences, ad hoc seminars, the priority given to the tutorships, the rich Parisian intellectual life, and, of course, those all-night discussions between the rosebushes and the pond in the Cour aux Ernests (with its legendary goldfish)…

But the École is first and foremost what its students and researchers who work there make of it. As you prepare to enter this place for the first time, you can be sure of being truly a part of the community of our École, you will help to make it lively, to shape it, to enrich it through your eyes, your ideas, your expectations; and from now on, we rely on you: welcome to the ENS, we hope you will feel at home!

WHAT IS THE ÉCOLE NORMALE SUPÉRIEURE?

The École normale supérieure is a French "grande école". It was founded in 1794, during the French Revolution, and its main purpose was to train secondary-school teachers. The present form of ENS dates back to 1985, with the merging of the École normale supérieure de la rue d'Ulm, for young men, and the École normale supérieure de jeunes filles, for young women (founded in 1882 and located in the Jourdan and Montrouge campuses). Now the École normale supérieure is a co-ed school preparing its students to teach and do research, but also to work in the government and even in public firms.

The French élèves normaliens receive a stipend during their four years of studies, but in return they have to work for the French state for six years after they have finished their studies at the École.

Since 2005, the École normale supérieure has also recruited 120 normaliens étudiants each year, on examination of their application. Most of these students come from universities or the French "classes préparatoires"; they receive no pay and their courses last three years.

THE DIFFERENT STATUS OF THE INTERNATIONAL STUDENTS

More than 20% of ENS students are international students, who contribute towards the vitality of the institution. The international students are divided into two groups: those who study at the ENS to obtain a degree, and those who study at ENS without obtaining a degree.

The following students will obtain a degree:

• Elèves normaliens étrangers: they have passed one of the national competitive exams – all in French – to gain admission to the École. Successful applicants (all citizens of one of the European countries) benefit from the same status as the French normaliens and are remunerated. They receive a grant from ENS and a room on one of the School's campuses. Their courses last four years.

• Normaliens étudiants étrangers: they are recruited upon application and a motivation interview. They study here for three years, are not remunerated but they can obtain a room on one of the School's campuses on social grounds (and if a room is available).

• Doctoral students who prepare a Ph.D. at ENS, in the doctoral school Paris Sciences et Lettres Research University: Physics in the Île-de-France doctoral school, the Interdisciplinary arts and humanities/sciences doctoral school, and the Astronomy and Astrophysics doctoral school.

The following students will not obtain a degree at ENS and do not have to validate ECTS credits:

• Pensionnaires étrangers: these students (about 100 each year) are enrolled at their home university (located abroad), and stay at ENS for up to a year. They come to ENS on an exchange program and obtain accommodation on one of the ENS campuses (in most cases).

• Auditeurs étrangers, who are at the École for one semester or one year on an exchange program or without an exchange program.

• Post-doctoral researchers, who come to ENS after obtaining their Ph.D.

THE FRENCH ACADEMIC SYSTEM

The following students will not obtain an ENS degree but have to validate ECTS credits, under an agreement with their Home universities:

• ERASMUS+ students and interns (about 30 per year).

• Students enrolled in the History and literature Master’s at Columbia University (about 10 per year).
The French academic system is made up of two different institutions. Among them are two: the University and the École normale supérieure (ENS). The École normale supérieure is special in that it is a "grandes écoles," which are selected on the basis of the knowledge of a particular field, while universities offer a variety of licences and master programs.

The Licence (Bachelor) is prepared in three or so years. It comprises 180 credits (European credit system) and is able to apply for post-doctoral positions or for a scientific research (or colloquially residence permit, valid for one year) from outside the European Union must get set up the contract, students must contact the chosen structure is an administrative department.

Licence consists of licence professionnel (professional licence). ENS students may not enroll in a licence profesional without obtaining the licence.
STUDYING AT ÉCOLE NORMALE SUPÉRIEURE

ACADEMIC STUDIES

All students enrolled at the École normale supérieure must take at least two courses per semester and one modern language course per academic year.

The ENS offers a wide range of courses, spread out in 15 different departments in Sciences or Arts and Humanities: Biology, Chemistry, Cognitive science, Computer science, Earth sciences, Mathematics, Physics, Economics, History, History and theory of art, Geography, Literature and languages, Philosophy, Social sciences.

There are several types of lessons, depending on the public and the department that organizes them.

In the Sciences, lessons are mainly 
cours magistraux, i.e. lectures for a class of students, travaux pratiques, i.e. lab work, travaux dirigés, i.e. supervised practical work, and research seminars on a precise subject. Training through research is validated when students do an internship in a laboratory, under the supervision of the ENS or a partner institution.

In the Humanities, lessons can take various forms: induction courses are for students, especially first-year students, wishing to become familiar with a general subject. Research seminars cover a specific subject on which several speakers share their points of view. There are also numerous classes in between. Training through research in humanities is validated by writing and defending a research paper, during each year of their Master's course.

The French grading system is based mostly on a 20-point grading scale. The lowest mark is 0/20, the highest mark is 20/20 and the pass mark, which allows the validation of the exercise or the semester of the academic year, is generally 10/20 (however it may be 12/20 in some specific cases). The minimal grade for a research paper to be accepted is 14/20.

Numerous foreign languages are taught, including some rare languages. The choice includes Arabic, Bambara, Chinese, Danish, English, French Sign Language, German, Modern Hebrew, Hindi, Icelandic, Italian, Japanese, Korean, Persian, Portuguese, Russian, Spanish, Swedish, Turkish, and Yiddish. Lessons in French as a Foreign Language are also taught for foreign students wishing to learn French or to improve their level.

The course description book, the Brochure des enseignements, is available on the ENS website.

While the competitive examinations admit students to ENS, the diplôme de l’École normale supérieure (the ENS diploma) signals the end of their studies at the École. To obtain the diploma, graduating students must have been enrolled at least three times for the diploma, must already have obtained their Master's degree and must have obtained at least 36 credits at ENS. At least one-third of these 36 credits must be in the same discipline as the department to which they belonged and as the Master's degree.

TERMS AND CONDITIONS FOR DOING AN INTERNSHIP

Internship regulations in France are very strict. Only students enrolled on a national university degree or the diplôme de l’École normale supérieure may do an internship supervised by the ENS, generally in a scientific laboratory, a public administration or a firm. Before beginning the internship, students must complete a contract called convention de stage, signed by themselves, the ENS Director and the hosting organization. Interns must be paid (they receive an internship ‘allowance’ rather than a salary) if the internship lasts more than two months. Nevertheless, the amount of this allowance may not exceed €500 per month. These conditions are compulsory for internships because the convention de stage plays the role of insurance. In order to obtain a convention de stage students must contact the Service de la scolarité et des concours.

REMINDER OF THE BENEFITS FOR PENSIONNAIRES AND INTERNATIONAL STUDENTS

- Free access to all ENS lessons and seminars. Students may also enroll in a French university (contact the university for information about the lessons).
- Academic tutoring (called ‘tutorat’). All ENS students should have a tutor. On their arrival foreign students and pensionnaires should contact the representative of the International relations office to find a tutor (if they want to).
- Access to the ENS libraries – students must fill out the registration form of each library.
- Access to computer facilities (internet in the halls of residence, e-mail address, computer room).
- Access to cultural, arts and sports activities organized by the students’ union.
- Access to the ENS restaurant at subsidized prices.

NB: Each department has a representative for the International relations office. All foreign students must introduce themselves to one of the two representatives of the departments they have chosen; they must also introduce themselves to teachers and researchers whose research subject is related to what they are studying. Pensionnaires étrangers can take lessons and validate them, in accordance with their universities of origin, for the course they follow there.

All normaliens, whether French or foreign, have to choose a tutor from the teachers of their department (pensionnaires étrangers can choose one too). Each semester they also have to sign a contrat d’études (learning agreement) on the software called GPS.

The Service de la scolarité et des concours (SAE) is in charge of the relations with the préfecture, in particular for the visas and residence permits.
### Teaching and Research Institutions Outside the ENS

A non-exhaustive list of academic institutions in which the normaliens can take lessons, attend seminars or do research. Information on the detailed lessons program or the library opening hours is available in each institution concerned.

BEFORE YOU ARRIVE: FOR NEW STUDENTS

ADMINISTRATIVE FORMALITIES

RESIDENCE PERMIT

Applications for the residence permit are filled out at School during the induction day organized by the International Affairs Department and the SAE (Registrar’s Office), Wednesday, September 6.

Since the beginning of the 2003 academic year, all students who receive their first residence permit must pay a fee of €58 and must take a medical examination by order of the préfecture. This fee must be paid on the date on which the permit is granted: approximately a month and a half after the start of the academic year.

If you are renewing your residence permit made out by the Registrar’s Office, you must pay a fee of €50 directly to the préfecture, when you collect the permit.

NB: A biometric residence permit was introduced in June 2013. You will be requested to supply a fingerprint in order to obtain this.

VISAS

Nationals of countries in the European Union and the Swiss Confederation do not need a visa. In application of the law of 26 November 2003, they no longer need a residence permit.

Students from other countries must request a type D long-term student’s visa (CESEDA R311-3 6°) from the French Consulate in their country of origin or residence. The consulate will give you a VLSTS (long stay visa which acts as residence permit), and an application form for an attestation from the OFII (French Office of Immigration and Integration), which you must take to the Registrar’s office when you register. (Take the letter sent by the Head of International Relations at ENS to your consulate).

LANGUAGE ASSISTANTS

If you intend to ask for a position of language assistant in a secondary school (which is sometimes the case in exchanges with British or American universities), you should contact the French Embassy in your country and ask for a language assistant visa which you must take to the Registrar’s Office on your arrival. They will take care of the application procedures.

We remind you that your first salary will not be paid until three months after you take up your position.
WHAT TO BRING WITH YOU

PAPERS AND DOCUMENTS

Please bring the following documents to be handed in to the Registrar's Office:

- Passport
- Birth certificate - COMPULSARY (not applicable for nationals within the European Union): this must be translated into French and be certified exact by an official body (the parents' full names must be included).
- Long-stay visa: the visa stamped on your passport must be a type D long-stay student's visa or a language assistant's visa (only for language assistants in schools or universities). On your arrival in France, the ENS will take charge of obtaining your residence permit. This permit is compulsory except for nationals of European Union countries or Switzerland.
- Documents from the French Consulate (OFII)
- Grant certificate (scholarship) or personal or family means test (translated into French)
- Insurance - COMPULSARY (European insurance card, insurance from your university or family)

Letter(s) of recommendation from your university (not compulsory)

ONLY for registration for the ENS Diploma and/or in a university, you must provide:

- the originals of diplomas (from high schools and universities).
- their photocopies certified exact by a qualified body.
- their translation into French, done by a sworn translator.
- the corresponding grade sheets.

MEDICAL INSURANCE

- Essential EXCEPT for students who receive French state grants.
- You must take out insurance in your country (university or family insurance), BEFORE you leave.
- Make sure you know the terms of cover and reimbursement, especially if there is an agreement between France and your country. Remember to bring the certificate translated into French.

Third Party Insurance

- It is COMPULSARY to take out insurance covering risks of accident (and fire, etc.). You must do this on the day you register at ENS.
- You will be offered a contract with the company MAIF. For this you must meet the MAIF representative, who is available during the registration days (from September 4 to September 6 2017).

MEALS

The ENS has two restaurants, colloquially called pôts: one on the Ulm campus and the other on the Jourdan campus. The price of a meal for all students, whatever their administrative status, is €3.80.

The two restaurants are open for lunch from 11.50 to 14.00; in the evening, only the Ulm restaurant is open, from 06.15 to 19.30 (please check with the restaurants).

In the morning, the Ulm restaurant serves breakfast from 7.30 to 9.20, for €1.70.

EVERYDAY LIFE

MAIL AND E-MAIL

All ENS students have a pigeonhole for mail on the Ulm campus (between the salle informatique (computer room) and the bédéthèque (comic book library). This is where the administration sends the forms to be returned to the registrar’s office (SAE). The School communicates a lot by e-mail. On their arrival, all ENS students receive an e-mail address in the following form: firstname.lastname@ens.fr. As the administration and the departments essentially communicate by e-mail, you should check your e-mails very regularly.

It is important to check it regularly because ENS will send individual or group messages there. If you do not, it will automatically be canceled.

IMPORTANT NOTICE

You have to imperatively pass to the logistic service to obtain your multifunction card. This card gives you access to the buildings and the restaurants of the ENS, and includes you in the public directory. In case of an accident implying a person who is not included in the public directory, the École disclaims all responsibility. Moreover, each newly arrived person has to address the Computer resources center (CRI) in order to access the internet network of the ENS.
/BANKS

You will very probably have to open a bank account in France. Most banks have a network of branches in Paris and in the provinces. You can open a non-resident’s account without any particular formalities. If the bank in your country has a branch in Paris, opening an account and transferring money will no doubt be quicker than in another bank. The School has an agreement with the Société Générale, which makes it easy to open an account. This branch will be present on the first day of the semester. Finally, international bankcards (American Express, Visa, Mastercard, etc.) may be useful in that they enable you to withdraw cash easily.

/Public Transport

If you are under 26, you can get several reductions (Carte jeune, billets BIGE, Inter-Rail Card). Ask at the SNCF or Air France about how to obtain reduced-price tickets. If you intend to travel widely in France or in Europe, ask for information at an agency in your country specializing in conditions for using the Euro-pass.

For Transport in Paris

Two season ticket systems are available:
• For people under 26: Carte Imagine R (approximately €300 a year): this will let you travel freely on the RATP networks (metro and bus) and the Paris section of the RER network (RATP and SNCF).
• For people over 26: Carte Navigo (approximately €700 a year, paid in monthly installments from your bank account): this will let you travel freely on the RATP networks (metro and bus) and the Paris section of the RER network (RATP and SNCF).

You can also buy tickets singly (about €2) or in booklets of 10 (about €14). The metro runs from 5am until 1:15am (and until 2:15am on Saturdays). In general the RER runs until 12:30 or 1:00am. Many buses however cease to run after 20:30 although certain lines run in the evenings and at night, others on Sundays. Just enquire!
